

FINANCIAL AND COMMERCIAL MONEY AND STOCKS.

NEW YORK FINANCIAL MARKET.

Money - Money - 1/2 per cent. Prime Mercantile Paper - 1/2 per cent. Government Bonds - 1/2 per cent.

Railroad Bonds - Market and irregular for everything except Nickel Plate firsts, the total sales of which (\$82,000) were over half of the total business in all bonds traded in during the day.

The stock market was again irregular, active and feverish. The street was well supplied with rumors throughout the day, some of which, upon investigation, proved to have more or less foundation in fact.

First quotations were irregular, but the general market soon developed considerable strength, and the best prices were generally made in the first hour.

Early trading was marked by heavy sales of Pacific, which is believed to holders this stock are selling on each rally, rumors industriously circulated the past few days to the effect that the differences between the Pacific and Union Pacific, which do not increase the subsidy, while the railroad officials are equally positive in their assertions that they will not consent to any such arrangement.

Following the announcement that the executive commission had failed to meet to-day to recommend what should be done in regard to the de-carriage of a dividend, and in view of the growing impression that the dividend would be very small or possibly passed altogether, there will be a meeting of the directors of the company when the question will be decided.

Jersey Central also developed great weakness on account of the troubles in which the company finds itself by the failure of Reading to meet the payments provided for under its lease.

The strong stocks on the list have been North-western, Vanderbilt and Gould stocks, the last mentioned, with the exception of Union Pacific, has been very quiet. Mr. Gould is expected back to-morrow, and it is believed that he will do little to do with the stock market at present.

Trading in St. Paul and Pacific Mail amounted to 15,000 shares, leaving less than 100,000 shares to the remainder of the list. The third most active stock was Union Pacific, which appears to have lost all its friends among the old bull party. A good deal is heard on the street about the probability of a thorough investigation by the Department at Washington and the probable result of it.
